WARNING NOTICE:

It is now known, thanks to Patrick Byrne, that the White House staff and specifically the Chief of Staff Mark Meadows, cannot be trusted to deliver mail to the President of the United States of America. Blocking the delivery of mail to the intended recipient is a felony, and at this level, also treason. This Memorandum is published in part to get around the misbehavior of Mr. Meadows. If you have your own channel toward President Trump, please use it, this Memorandum is worth \$100 Trillion to him and to We the People. \$100T = #MAGA.

MEMORANDUM FOR THE PRESIDENT OF THE UNITED STATES OF AMERICA

Subject: Immediate Opportunity to Confiscate \$100 Trillion from Wall Street

Date: 29 December 2020

Background. There are a large group of cases and other documented studies, demonstrating that Wall Street has stolen over \$100 trillion from Main Street, including pension funds of police, firefighters, teachers, and nurses, in the past fifteen years.

Bottom Line Up Front. You have the authority to confiscate via civil and criminal forfeiture, no less than \$100 trillion, with particular attention to Goldman Sachs, JP Morgan, and Merrill Lynch, but also including Credit Suisse, Deutsche Bank, UBS, and many “smaller” firms such as Citadel. Bill Binney, with 10 people in 30 days, can harvest all relevant NSA data inclusive of offshore banking transactions, in further support of the existing documentation of fraud.

Immediate Political Benefits. In combination with your denunciation of the COVID-19 pork bill that has fully exposed the perfidy of the two parties and their subservience to the Deep State and its foreign partners, your public announcement of your intent to confiscate \$100 trillion from Wall Street by 1 February 2021, and to use that money to pay off the national debt (only Andrew Jackson has done this to date); fund a debt jubilee for students, elderly, and small business; cover all past due rents and mortgages on a one-time basis; and execute the DoD-Labor National Jobs Re-Training Program (with salaries) devised by the Deputy Secretary of Labor under Ronald Reagan, but not executed, will make it clear to both Members of Congress and to the public that you are uniquely poised to Make America Great Again by ending the rigged financial system at the same time that you end the rigged political and media systems.

Immediate Economic Benefits. The rigging of Wall Street has been known since the late 1980’s but the rigging deepened in this century. What most do not know is that most legitimate entrepreneurs and inventors no longer go to Wall Street to raise money because they know that the placements are rigged and they will be subject to naked short selling attacks intended to destroy the company so its shareholders have no legal standing – the perfect crime. If you were to announce that in your second term you will be treating the Senate Banking Committee, the Security and Exchange Commission, and the Depository Trust Clearing Corporation (DTCC) as RICO organizations, and ending white collar financial crime, this will cause the stock market to EXPLODE in growth as innovators and entrepreneurs return to the capital marketplace.

Patrick Byrne Is An Asset. He can answer any questions you might have and also bring Wes Christian, the lawyer who for 20 years has prosecuted and documented this fraud, in to see you. A website has been created as a starting point for public education: <https://stopnakedshortselling.org>. If you were to name Byrne as Chairman of the SEC, with the additional charge of integrating the DTCC into the government so as to end forever the practice of covering up “failure to settle” trades, you could triple the capital marketplace during your second term. **St.**

Background on Patrick M. Byrne

Patrick M. Byrne (born November 29, 1962) is an American entrepreneur who was the CEO of Overstock.com. In 1999, Byrne launched Overstock.com after leading two smaller companies, including one owned by Warren Buffett's Berkshire Hathaway.

Byrne was born in Fort Wayne, Indiana. He is the son of John J. Byrne, former chairman of Berkshire Hathaway's GEICO insurance subsidiary and White Mountains Insurance Group. He holds a certificate from Beijing Normal University, has a Bachelor of Arts degree in Chinese studies from Dartmouth College, a master's degree from Cambridge University as a Marshall Scholar, and a Ph.D. in philosophy from Stanford University.

Byrne was a teaching fellow at Stanford University from 1989 to 1991 and was manager of Blackhawk Investment Co. and Elissar, Inc. He served as chairman, president and CEO of Centricut, LLC, a manufacturer of industrial torches, then held the same three positions at Fechheimer Brothers, Inc., a Berkshire Hathaway company manufacturing police, firefighter, and military uniforms.

He is a cancer survivor, and has ridden a bicycle across the country to raise awareness and money for cancer research at the Dana Farber Cancer Institute. Byrne has also supported implementing school vouchers and other educational reforms. Byrne was the largest donor to political causes in Utah during 2003–2006, while his father was the third-largest.

In 2002, Byrne took Overstock.com public. Since its initial public offering, Overstock.com has increased revenue to almost \$1.8 billion, while achieving profitability in 2009.

In 2005, Byrne became known for his campaign against illegal naked short selling. Byrne and securities regulators maintain illegal naked shorting has been used in violation of securities law to distort prices of public companies' stock.

In a conference call with analysts in August 2005, Byrne said that "there's been a plan since we were in our teens to destroy our stock, drive it down to \$6–\$10 ... and even a plan for how the company would then get whacked up." He said that the conspirators were part of a "Miscreants Ball," headed by a "Sith Lord," whom he refused to identify but said "he's one of the master criminals from the 1980s." Byrne said the conspiracy included hedge funds, journalists, investigators, trial lawyers, the SEC, and Eliot Spitzer. Fortune writer Bethany McLean said that Byrne had become a "hero to those who believe that short-sellers are the operators of Wall Street's ultimate black box, predators who destroy companies through innuendo, bullying, political connections—and sometimes through an illegal practice known as 'naked shorting.'" Byrne financed and largely wrote a full-page advertisement in *The Washington Post* which said "Naked short-selling ... is literally stealing money from the widows, retirees, and other small investors." In a letter to *The Wall Street Journal* in April 2006, Byrne contended that "blackguards have practiced 'failure to deliver'" of securities, were "destroying businesses and (probably) destabilizing our capital markets."

Feast of the Naked Shorts – With US Government Complicity

Hungry Like The Wolf

Wall Street financial crime is not new. As far back as the Great Depression Wall Street has manipulated the marketplace to cheat the American public and more recently, both public and private pension funds. Naked short selling — the counterfeiting of shares that are never delivered — is one of Wall Street’s greatest on-going crimes. Articles, books, and lawsuits have documented toward \$100 trillion (not billion — TRILLION) in money stolen in this fashion. That money is then used to buy land, buildings, inventions, airplanes, mansions and boats all over the world as well as gold, silver, and other valuables.

Above is shown the “ecology” of naked short selling, an on-going crime with US Government complicity.

The US Congress, particularly the Senate Banking Committee, has explicitly protected Wall Street from lawsuits and from federal racketeering investigations. The Senate Banking

committee has explicitly condoned the turning of a blind eye on Wall Street financial crimes by the SEC, FINRA, and the FBI.

Major banks and hedge funds are allowed to counterfeit billions of shares — “phantom shares” that are never delivered despite good regulations that among other things demand “settlement” (delivery of purchases shared) within a few days of purchase. Every participant in this crime is “cooking the books” while destroying target companies to avoid prosecution — once a company is destroyed its shareholders have no legal standing to sue the criminals that destroyed the company with naked short selling.

The Depository Trust & Clearing Corporation (DTCC) is a “self-regulated organization” that is the chief enabler and cover-upper of Wall Street’s financial crimes. It constantly refuses to cooperate with what few legitimate government inquiries are made.

Companies chosen for destruction are attacked not only with millions of counterfeit shares that cause the price (valuation) of the company to collapse, but this attack is aided by unethical law firms that file solicitations of class action lawsuits to scare legitimate investors into panic selling — these false solicitations, based on insider knowledge, constitute defamation and tortious interference. Because they are part of a conspiracy, if proven they would yield triple damages.

Then you have placement double-dealers — companies that specialize in raising money for emerging and small companies who betray their client by providing insider information to naked short sellers such that when the placement is finally made, the valuation is so low that the naked short sellers can buy low and keep their profits (for example, driving a price from \$5 to \$2 with counterfeit share offerings, then buying real shares at \$2, yields a \$3 profit per share across millions of transactions). This is done every day.

Paid “bashers” including journalists working for the top financial media services companies but also many bottom feeders who create fake market research companies and fake social media accounts to maliciously libel the target company into death are an essential part of the criminal mob that is profiting from the death of target companies.

\$100 trillion appears to have been stolen from the public by Wall Street over the past ten years. Can our President get it back and apply those funds to compensate past victims and also reboot the American economy?

The Real Looters – Wall Street from Main Street

We've seen plenty of looting during the 'peaceful protests,' but the looters we saw on TV are amateurs compared to what's going on at the top.

The Federal Reserve no longer consults Congress to create and distribute their debt currency. Not only has the Fed routinely bailed out its owners—the globalist central banks—it has also engaged in nonstop quantitative easing to prop up the stock market. Just this morning I saw the Dow was down over 700, but then for some reason it flew up to nearly 300 in the green. Was there fantastic news to trigger a nearly 1,000 point turnaround? No. It was the Federal Reserve at work. The market needed 'liquidity' just as a dry drunk needs more booze.

If the Federal Reserve is buying their own treasuries as well as bonds and stocks, who owns those financial instruments? Certainly not the poor or middle class. *The top 1 percent benefits.* They've actually grown fabulously richer due to the pandemic. They control the system. They must not and cannot lose regardless of dire economic conditions. Small businesses are shut down, but global corporations such as Walmart remain open—fine and dandy. It's business as usual—the screwing of the average man.

The Monopoly Men of the 1 percent own 50 percent of the stock market as well as over half the world's wealth. The very top 1/10th of that 1 percent are billionaires such as George Soros and Bill Gates and they think their fantastic wealth gives them the right to usher in an Orwellian police state to monitor and control us all. Bill Gates' COVID-19 vaccine isn't about helping people. It's part of their plan for a global ID system. Digital elements and perhaps a chip will become mandatory. Their plandemic has been put in place to make this happen. It's the 'mark of the beast.' Your very life depends on NOT taking Bill Gates' vaccine.

After the 9-11 attacks, 'Big Guv' took away our rights under the excuse of 'keeping us safe.' We lost many of our Fourth Amendments rights and they will not return. They convinced us to exchange our freedom and privacy for safety and they made it sound like the patriotic thing to do, hence their 'Patriot Act.'

The Federal Reserve has existed for 107 years and during that time they stole countless trillions of dollars in wealth from average Americans. Big government stole our freedom. The 1 percent, including the Rockefeller Foundation, The Bill & Melinda Gates Foundation, The Clinton Foundation, and now the Obama Foundation will make sure everything else gets stolen—including our very lives.

\$100 Trillion Stolen, \$100 Trillion Laundered

Various books and documents and legal cases have documented over \$100 trillion stolen by Wall Street from pension funds and individual investors through a practice known as naked short selling, where Wall Street sells “phantom shares” that are never delivered and keeps the money. The complicity of various government elements including the Senate Banking Committee; the Department of Justice; the Security Exchange Commission; and the US Attorney in the Southern District of New York are all complicit in this federal crime being allowed to go on without challenge.

Money laundering is also a federal crime. An estimated additional \$100 trillion in illicit funds gained from trafficking in children, drugs, and other forms of contraband is believed to have been processed by Wall Street with malice – with full knowledge of the illicit nature of the money being laundered.

A typical ploy is to pretend that the real cash has been earned in a manufactured series of stock investments. In other words, the money is backed dated and covered up as if it were from the sale of stock bought years before at a very low price and now sold at a very high price. In fact all the paperwork is fraudulent.

Every laundered dollar – and every asset bought with a laundered dollar – is subject to criminal forfeiture without advance legal proceedings. Hearings are required after the fact; the criminal subjects should expect to lose any hearing where incontrovertible evidence is presented showing the illicit provenance of the funds and the criminal character of the individuals being served by Wall Street.

The Game Is Rigged -- The Silver Market Manipulation Example

The Game Is Rigged

The game is rigged. The central bankers that own the Federal Reserve always win. Congress allowed them carte blanche printing power back in 2008. They should have been broken up for their criminal wrong doings and their leaders should have gone to jail. Instead those that own the printing press were rewarded with bonuses and they continue to make themselves even fabulously richer as they destroy the middle class.

Silver and gold continue to be suppressed by means of high frequency trading and 'spoofing,' which involves large short positions to scare away longs. Then the big bank traders quickly withdraw their massive orders. This is against the law, but we've already seen how the bankers are above the law. What about regulatory agencies such as the CFTC and the SEC? They tend to be populated by insiders, just as our government is populated by Goldman Sachs men and other big bankers who lobby for their masters. Hillary and Obama are examples—they did the bidding of the bankers and get rewarded handsomely by making speeches for those banks.

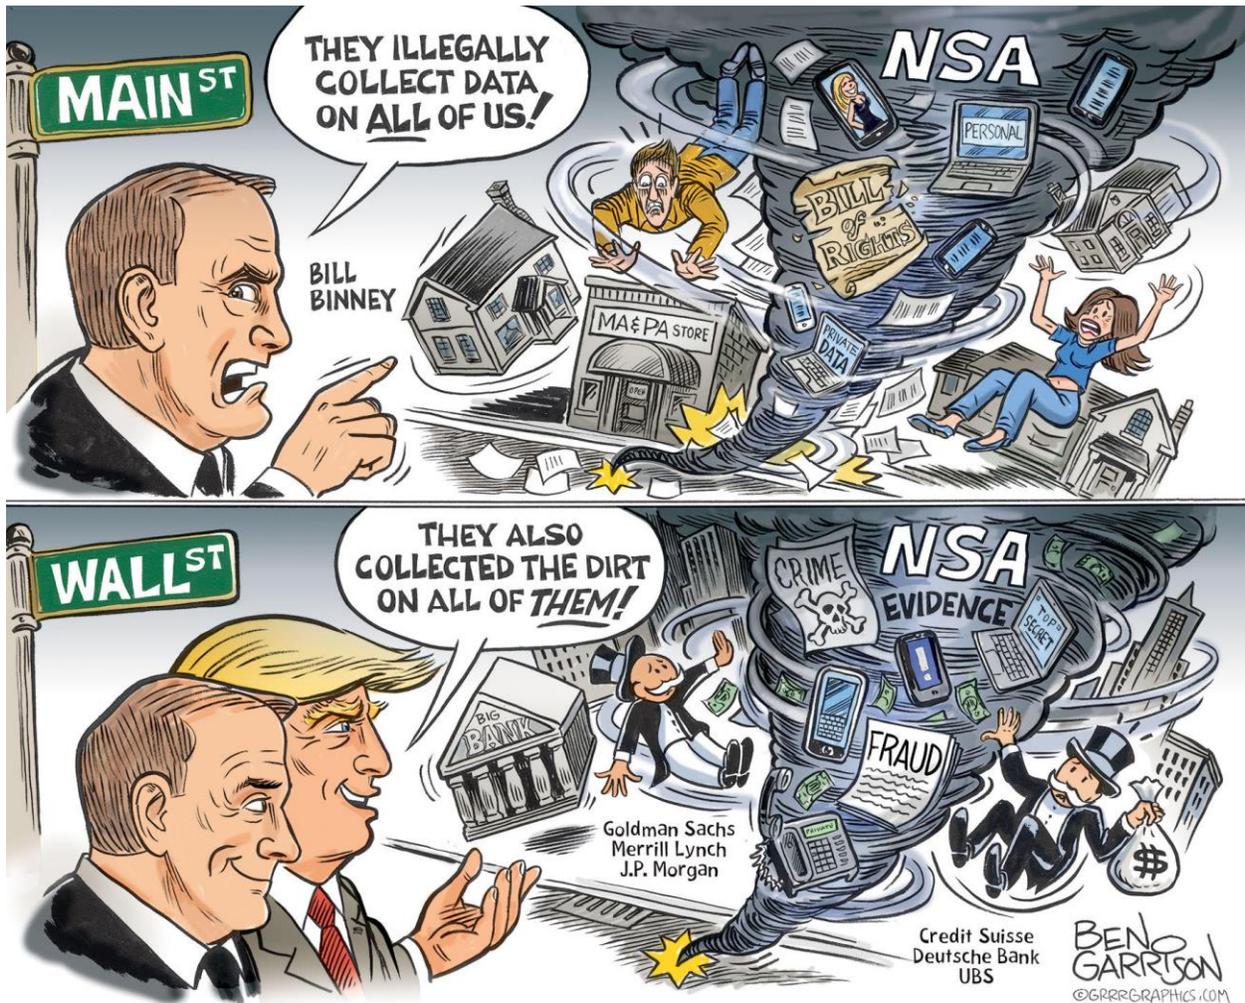

Silver and gold are Constitutional money. For this, the Federal Reserve makes sure their competition remains in a dungeon, where they are routinely beaten up and tarnished by corrupt traders. It's time for Trump and Barr to go after them, but more importantly, it's time

to put a stop to Federal Reserve and its vile, immoral system of debt money that impoverishes all but a small percentage at the very top.

END THE FED!

—Ben Garrison

The Weaponization of NSA Against Traitors, Elite Pedophiles, & Wall Street

The Wind blows in both directions

Bill Binney blew the whistle on NSA violating all applicable laws and regulations in how it spied on US citizens, but today he is helping our President — and could help our President confiscate \$100 trillion stolen from the public — by leveraging the NSA data base against white collar criminals on Wall Street.

William Binney is a former Technical Director at the National Security Agency (NSA) who reported the NSA through proper channels — to the Inspectors General of both the Department of Justice and the Department of Defense — for its wanton violation of all applicable laws and regulations pertaining to the protection of US citizen privacy. His home was attacked by the FBI and guns pointed at his head while he was in the shower (he is a double-amputee). The FBI surrendered once they understood the depth and breadth of the information that would be released to the public if they persisted in the same kind of misconduct against him as they have pursued against Mike Flynn and others.

He is an authority on NSA capabilities and has since leaving NSA in 2001 founded the firm Pretty Good Knowledge to advise government on the application of NSA capabilities toward domestic traitors, elite pedophiles, and white collar criminals, and on how to assuring electronic election process integrity. His firm also helps the private sector with the Thin Thread meta-data sense-making tool.

He is on record recently as stating that with ten people in thirty days he can harvest all relevant NSA data on all Wall Street firms violating the law by doing naked short selling for themselves, and money launder for a fee from drug dealers and those who trade in women and children. President Donald Trump knows Bill Binney and is fully appraised of how NSA can be used against our domestic enemies.

The MAGA Squeeze – Taking Back Illicit Wealth for We the People

Roughly 5,000 individuals, a combination of individuals, partners in the major Wall Street firms including particularly Goldman Sachs, Merrill Lynch, and JPMorgan, and associated lawyers and others engaged in the global ecology of naked short selling and money laundering – both federal crimes – are now subject to discovery and criminal forfeiture of all assets purchased with illicit wealth.

In the United Kingdom “unexplained wealth” is now subject to investigation and discovery by the National Crime Agency. The USA needs a similar project. To take one example, all of the vacant luxury condominiums in New York City are immediately confiscatable by criminal forfeiture once the illicit provenance of the funds used to buy these asset can be established.

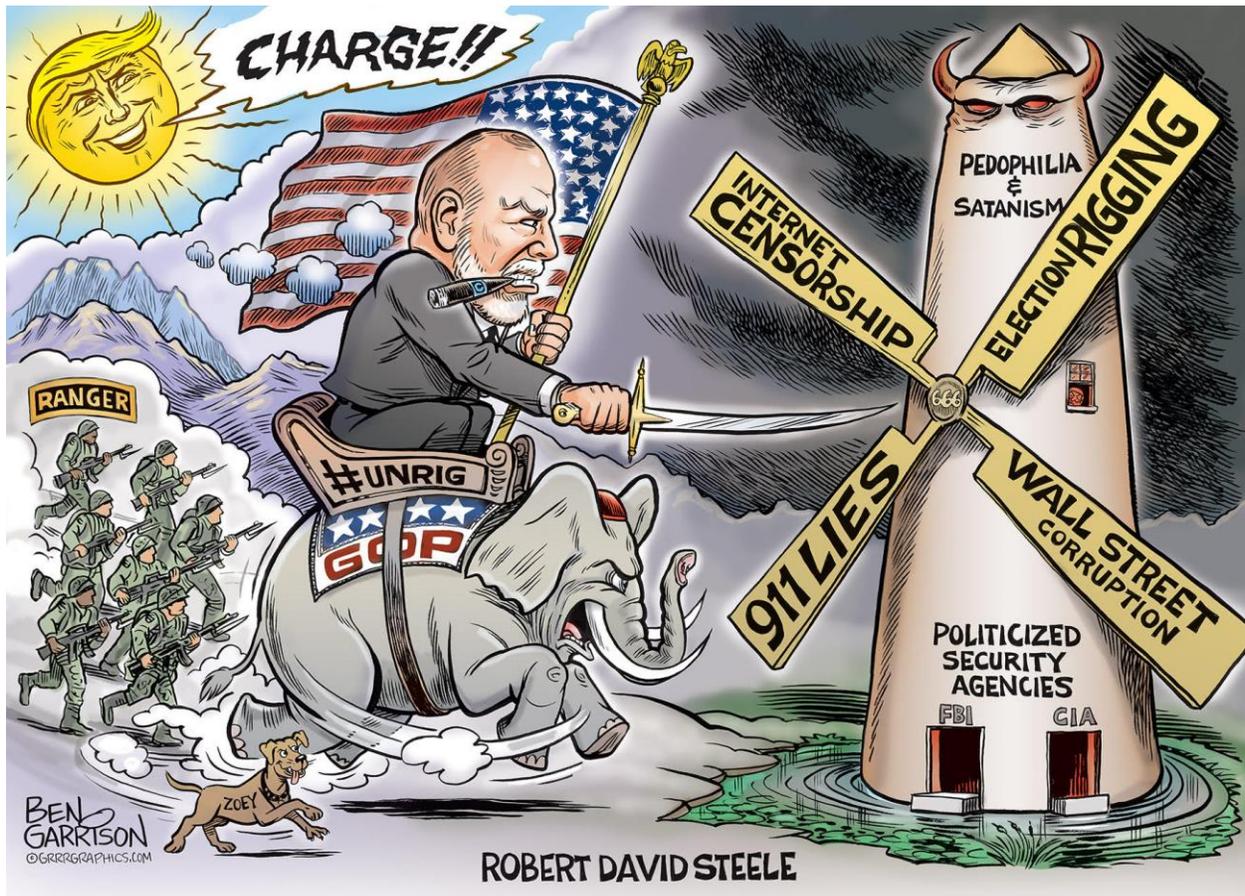

The President of the United States of America has been briefed on the depth and breadth of all data now stored by the National Security Agency (NSA) and is also aware of what could be discovered within a very short time through a complete audit of the Depository Trust & Clearing Corporation (DTCC).

The fact that the President has War Powers is a bonus. Wall Street criminals and their clients have nowhere to run. It is immediately possible for the President to execute a squeeze and come away with no less than \$100 trillion dollars in confiscations of criminally-derived assets,

both to make reparations to all the pension funds and individual investors cheated by Wall Street; and to fund the re-building of America by restoring the wealth stolen from Main Street by Wall Street, back to Main Street.

One Man's Personal Endeavor to Support the President & the Public

"Quixote" Steele on the Move?

Robert David Steele (RDS) was born in the USA (New York, 16 July 1952) and is a former Marine Corps infantry officer, CIA spy, and second ranking civilian in Marine Corps intelligence, responsible for creating the Marine Corps Intelligence Activity. He started the modern Open Source Intelligence (OSINT) discipline in the 1980's and quickly came to blows with the US intelligence community which is terrified of the idea that most decision-support can and should be done with open sources that can be shared.

He went on to create #UNRIG to support our President, and to champion Open Source Everything Engineering (OSEE) that would allow the President to rebuild America at 20% the cost of the failed Western economic model rooted in waste, lawyers, and thieving bankers. He is widely published; a top non-fiction book reviewer in the English language; and was recommended for the Nobel Peace Prize in 2017. His motto is "the truth at any cost lowers all other costs."

His personal website is <https://robertdavidsteele.com>.

This one cartoon was funded by Shannon Wright, MD PhD, a strong supporter of #UNRIG ideas.

Among his presidential communications blocked by the White House staff from reaching the President are his printed books on *Reinventing National Security*, *Reinventing Intelligence*, and *Reinventing Engineering*, as well as his lecture on Reinventing America available at Amazon in print as *EYES ONLY: For the President (and the Public): Everything the Deep State Does Not Want You To Know*.

See the Trump Revolution Series (below), of which this is the 56th publication, for a sense of all of the information being blocked from reaching the President by a series of Chiefs of Staff more loyal to the Deep State than to the President or We the People and their fallen Republic.
