Administrative Note

The authors are providing this information to the President and the Public with the intent of inspiring a national conversation – both partisan and non-partisan – about the current electoral system that is criminally insane and insanelly criminal.

The specific suggestions for each of the electoral reform areas are just that: suggestions. It is the authors' hope that in the process of a national conversation led by the President and demanded of the Members of Congress by their constituents (including the majority of the constituents who do not vote), that a consensus might be reached leading to both a landslide victory for the President in 2020, and the occupation of Congress by the public in 2022, in the form of an end to any one party being able to control either chamber.

Our desired end state is a Congress in 2022 – and state legislatures by 2024 – that are in proportional representation of all constituents, exclude all financial and other forms of bribery and blackmail, and make evidence-based decisions in the public interest.

For this we pray.

Dedication

This White Paper is dedicated to President Donald J. Trump, who is unique for both having triumphed over being betrayed by his own party (which is controlled by the Deep State via the Cheney and Romney crime families among others), and also unique for having the potential to level the playing field for the 73% who did not vote for him, most them totally disenfranchised from the political process by design of the two-party tyranny.

If we are to be a Republic (fifty sovereign states) and also be a democracy (100% of our eligible voters both informed and engaged), this is the one man who has the power to introduce and demand passage of the #UNRIG Election Reform Act of 2020.

About the Authors

Cynthia Ann McKinney, PhD, was born in 1955 in Georgia, daughter of one of the first black police officers in that state, and her mother who was a nurse. She was the first black woman elected to Congress from Georgia and served for six terms, each time defeating Zionist efforts to block her when she refused to “take the pledge” common to all Members of Congress, to place Israel First instead of America First. They finally gerrymandered her out in 2007, at which point she left the Democratic Party. In 2008 she was the Green Party candidate for the Presidency. Today she is an Independent.

Robert David Steele, MA, MPA, was born in 1952 in New York to an oil engineer and a Colombian mother attending Adelphi College. He has been a Marine Corps infantry officer, a CIA spy, the second-ranking civilian in Marine Corps intelligence, and the CEO of Open Source Solutions, Inc. and Earth Intelligence Network. In 2017 he was recommended for the Nobel Peace Prize. He is an Independent.

Preface

A picture really is worth 10,000 words, as the ancient Chinese proverb is said to have stated. Below is a picture that shows the decrepitude of the two-party tyranny that excludes 70% of all voters from meaningful participation in our very fake and very corrupt democracy; and excludes virtually all but those pre-selected by the Deep State, from holding meaningful national (or state) office.

It also shows, with a double-meaning, one for President Donald J. Trump and the other for every American, how we can achieve the Mother of All Landslides in favor of democracy if the 70% now excluded are mobilized by a tangible offering that only President Donald J. Trump can achieve.

Here is the deal, Mr. President. Submit to Congress this Act on the 1st day of September 2020 (the last month before Election Day in which both chambers are in session) and demand its passage prior to the House going on leave to campaign. Make this the one legacy that can restore the faith of every citizen in their cheating, corrupt, inattentive, wasteful, war-mongering government. Make it possible for Independents, small parties, and #WalkAways to be elected to Congress in 2022. You do that, and you will earn the Mother of All Landslides.

The 12-Step Program

Below in one graphic are all of the ideas for electoral reform as discussed and devised by tens of thousands of activists over the past fifty years (all those whose works were considered are listed at the end of this document). This graphic has evolved since 2017, as citizens have written in and pointed out missing elements not considered by working groups sponsored by organizations.

Neither the President’s earlier election reform initiative, nor the current endeavor by the National Academy of Public Administration (NAPA), address most of these fundamental – and deeply inter-twined – reforms. Single focus reforms will fail. The balance of this document will discuss each of the 12 steps that – in the aggregate – they must be done together – creates a real and trusted democracy. ***This proposal is not a final prescription – it is the start of a national conversation. Each of these 12 steps should be debated publicly – nationally.***

01 Universal Registration, Voter Validation, End Illegal Birthright

Proposed Legislative Language: It is hereby mandated, for federal elections, that all eligible voters shall be registered automatically at the age of eighteen, and that the Social Security Administration (SSA) shall maintain an electronic database of all eligible citizens cross-referenced to the US Postal Service (USPS) registry of valid mailing addresses. Prisoners, including prisoners on death row, shall retain the right to vote in federal elections as citizenship and the right to vote are inalienable. Birthright citizenship is limited to those born anywhere in the world to one U.S. parent wed by church or civil service; it excludes all births in the USA where neither parent is a US citizen.

Ley de Reforma Electoral de 2017 - # 1

02 Free & Equal Ballot Access, Dual Citizens May Not Vote

Proposed Legislative Language: It is hereby mandated, for federal elections, that no requirements may be mandated by the state to screen candidates for federal office; proof of US citizenship and a national standard of 150,000 signatures that must be from eligible federal voters able to be validated by e-verify is the only requirement to run for federal office. It is hereby mandated that dual citizens may not run for office nor may they vote. By virtue of their conflicted dual loyalties, dual citizens are also barred from holding national security positions requiring security clearances at the Top Secret level or above.

Ley de Reforma Electoral de 2017 - # 2

03 Tightly Drawn Districts Based on Citizens Only

Proposed Legislative Language: It is hereby mandated that Congressional districts, being federal election districts, shall be tightly drawn districts based on qualified US citizens as defined by the US Census, and shall be drawn by a federal districting authority, not by the state. Gerrymandering and all forms of interference with authentic, inclusive, and truthful district boundaries are forbidden. Illegal aliens and foreigners may not be counted in the allocation of districts across the states. Citizens who are under-age but will be of age in time to vote for either of the next two federal election shall be counted.

04 Public Funding of All Federal Campaigns - End CITIZENS UNITED

Proposed Legislative Language: The decision of the Supreme Court in CITIZENS UNITED is hereby over-turned. Only human beings, as individuals, can vote. All organizations, regardless of domicile, are excluded from funding any individual candidate for federal office. Organizations may provide the public with educational information subject to liability associated with telling the truth. All candidates who qualify for office under provision 02 will receive a sum to be established by the President at the beginning of each election period. One month prior to Election Day a second sum will be provided to all candidates still running.

Ley de Reforma Electoral de 2017 - # 4

05 Free & Equal Media Access, No Online Censorship or Manipulation

Proposed Legislative Language: All candidates registered for federal office shall receive free & equal access to the media, inclusive of multi-media interviews, print media, and social media. The Federal Election Commission (FEC) shall establish Tier 1 access at the beginning of the campaign, Tier 2 access in the middle, and Tier 3 access for the finalists in any federal campaign. Mainstream and social media are explicitly enjoined from censoring any individual, whether running for office or not, and explicitly enjoined from manipulating search or sharing results. Violators will be fined by the FEC for each instance in real time.

06 Restore LWV as Managers, Inclusive & Cabinet-Level Debates

Proposed Legislative Language: By Act of Congress, the role of Presidential Debate Manager is restored to the League of Women Voters (LWV) together with requisite funding to be established in each election cycle. The Commission on Presidential Debates is no longer qualified for non-profit status and is barred from all future participation in any Presidential campaign. At least four different parties and one Independent must be included in the first debate. Congress encourages the LWV to sponsor Cabinet-level debates (e.g. Attorney General, Defense, State) and overturns the prohibition on naming Cabinet members in advance.

07 Primaries Open or Funded by Party Not Public

Proposed Legislative Language: No funds shall be allocated for any primary by any political party that is closed to the public. Individuals who fail to secure their party's nomination for federal office in a state primary may elect to run as a candidate for another party willing to accept them, or as an Independent. All state regulations on federal campaign qualifications and processes are overturned as outside the jurisdiction of the individual states. Parties are encouraged to require their Presidential candidates to name a Cabinet in advance and to publish a notional federal budget prior to any primary being held in any state.

08 Election Day Holiday & Free Public Transport

Proposed Legislative Language: It is the duty of every citizen to be an informed and engaged participant in the process of self-governance at the county, state, and federal levels. In order to promote the maximum participation of all citizens, and particularly citizens of limited means who are wage earners and challenged when it comes to finding time for anything other than work, we declare each national Election Day to be a national holiday. We further declare that all public transport shall be free to any citizen enroute to or from their voting station; localities shall be compensated as needed by the federal government.

Ley de Reforma Electoral de 2017 - # 8

09 Paper Ballots Counted Publicly On Site + Exit Polls

Proposed Legislative Language: Electronic voting machines were designed to facilitate fraud with integrated fractional voting systems designed to select the winning candidate prior to the first vote being cast) and are also too vulnerable to remote hacking both on site and in the transmittal and processing of data. Elections for national office shall be by paper ballot, counted publicly and on site, combined with exit polls. As the Republic recovers from decades of corrupt state secretaries manipulating voting machines, and a two-party tyranny in Washington fronting for the Deep State, this is the single most important electoral reform.

10 End Fragmented Winner Take-All, Instant Run-Off from 3 Choices

"Winner takes all" works only when there are only 2 candidates. What happens when we get 2 lousy candidates?

Would a 3rd party candidate help? Not with "winner takes all" rule.

Because of the "spoiler effect". Let's say we have 2 ideas, Black & White, but neither candidate represent the ideas fully. You introduce a 3rd party candidate that is mostly white.

Even when a majority prefer 'white', say 60%, 'black' will take the election because the 'white' vote will be split between 2 candidates.

○ = 39%

○ = 21%

● = 40%

Solution: Proportional Voting. Voters get 1st, 2nd, & 3rd choices. The candidate with most votes across the 3 choices wins.

PB

Proposed Legislative Language: Fractional voting is a built-in flaw that can be exploited not only with electronic voting machines, but also with paper ballots. By "dividing & conquering" the electorate with propaganda and false choices, a winning candidate can be manipulated into being who is not in fact a majority candidate. Instant voting enables voters to select first, second, and third preferences, such that in the process of a public counting on site, their vote counts within the top three, and the final true majority candidate is selected based on a combination of all votes at all three levels of preference.

Ley de Reforma Electoral de 2017 - # 10

"Winner takes all" solo funciona cuando sólo hay 2 candidatos. ¿Qué sucede cuando tenemos 2 pésimos candidatos?

¿Ayudaría un candidato de tercer partido?

No con "winner takes all". Digamos que tenemos 2 ideas, Negro y Blanco, pero ninguno de los dos candidatos representa las ideas completamente. Introducimos un candidato de tercer partido que es en su mayoría blanco.

Incluso cuando una mayoría prefiere "blanco", digamos 60%, "negro" tomará la elección porque el voto "blanco" se divide entre dos candidatos.

○ = 39%

○ = 21%

● = 40%

Solucion: Voto proporcional. Los votantes obtienen las opciones 1^a, 2^a y 3^a. El candidato con más votos en las 3 categorías gana.

11 Legislative Integrity – No Secret Laws, Online Line-Item Voting

Proposed Legislative Language: The two-party tyranny having become the leading part of the Shadow Government that works for the Deep State, all legislation has been based on “pay to play” and secret legislation has been passed to conceal the active betrayal of the public trust by Congress. All secret laws are hereby rescinded and there shall be no secret laws passed in the future. All budgets including defense and intelligence budgets, shall be transparent to the public. All legislation shall be published online at least seven days prior to a vote, and shall be subject to line-item veto votes by both Congress and the President.

12 Economic & Financial Integrity – Unions Up, End Wall Street Crime

Proposed Legislative Language: Political democracy demands economic democracy. All prohibitions against unionization by any state are over-turned in so far as they apply to any organization subject to federal regulation as an inter-state enterprise. Unions, and professional associations, are the lifeblood of an effective capitalist system in which labor has a voice equal to that of capital. The Federal Reserve shall be nationalized and subordinated to the Department of the Treasury, and all prior prohibitions against the application of federal racketeering and criminal enforcement against Wall Street financial crime are rescinded.

Ley de Reforma Electoral de 2017 - # 12

A Call to Arms for Every Citizen

In his Mount Rushmore speech on 4 July 2020 the President nailed it when he spoke of the cultural divide between those who love America and want to make it work, and those who hate America, and instead seek to divide & conquer and make all those who have grown accustomed to hand-outs from the Deep State feel like victims with a right to be violent. If we are to restore the Republic, restore civility and civic engagement, and Make America Great Again, there are two challenges: the economic solution is illustrated below. It is within the President's power to confiscate \$100 trillion from Wall Street via civil and criminal forfeiture.

Then there is the political challenge. #UNRIG restores integrity to our electoral process. Please communicate to the President and to your Members of Congress that you want this Act – you want the system unriggered. #UNRIG is yours to command – and if enacted – the Republic is then yours to command.

Epilogue

Mr. President, please end this injustice against the 70% of the eligible voters who are disenfranchised. They cannot run for office and their vote does not count.

If you want the Mother of All Landslides, "make the deal," Mr. President.

The deal is that you present #UNRIG Electoral Reform Act of 2020 to Congress on 8 September 2020 when both the Senate and the House are in session, and you demand that they pass this legislation prior to the departure of the House for its election recess on 2 October. Any Member who fails to vote for #UNRIG Electoral Reform Act of 2020 should be actively targeted for defeat in their next election.

You are being betrayed every day by the "Grand Old Party" from the national level where the Romneys and the Cheneys are leading a rush to elect the senile Senator from Delaware (Wall Street), to the precinct level where your supporters are being blocked from filling any of the 50% of the vacant precinct seats and the voter outreach is limited to known Republicans.

Want to win by 50% or more of the eligible voters instead of 27%? **Make the deal.**

Robert David Steele and Cynthia Ann McKinney are easy to find online. They welcome invitations to speak to this topic via video tele-conference or in person and in favor of President Donald J. Trump who is carrying this country toward the finish line all by himself while being ruthlessly attacked by the Deep State and its two-party tyranny front.

Below is a photograph of the RV they used to tour the country in 2017 until they were brutally attacked for daring to put America First.

God Bless America!

Provenance of This Work

In 2008 Robert Steele published [*Election 2008: Lipstick on the Pig*](#). This work remains a useful guide for citizens in relation to the total dysfunctionality of our two-party tyranny, as well as a holistic guide to a panorama of issues across the economy, foreign affairs, and society.

In 2011 Robert joined the Occupy Wall Street working group on electoral reform, and briefed them on his emerging concept, rooted in a study of the below organizations and their very fragmented and often subversive approaches to election reform. It is a sad observation but totally consistent with reality: every organization is in some major way compromised.

In 2015 Robert published [*Open Power: Electoral Reform Act of 2015 – Open Source Activist Tool Kit.*](#)

In 2016 Robert published [*REVOLUTION!: How Donald Trump Can Win and Govern by Championing Electoral Reform, a Coalition Cabinet, a Balanced Budget, and a Constitutional Convention in 2018,*](#) and also [*Democracy Riots! We are all black now – deal with it!*](#), then [*DEPLORABLES RISING! Trump Can Win With a Debt Jubilee and Electoral Reform*](#) and [*RIGGED: Twelve Ways the Two-Party Tyranny Rigs the US Electoral System to Block Out Independents, Small Parties, and 70% of the Eligible Voters,*](#) respectively Books 1 through 4 in the Trump Revolution Series that now numbers over 50 publications, generally short white papers.

In 2017 Robert founded #UNRIG and Cynthia agreed to write the Foreword to [*#UNRIG: Beyond Trump & Sanders*](#) while they both also embarked on a national campaign to inspire a conversation about America First and election reform as the foundation for ending what now understand is the sordid underbelly of the two-party tyranny, the bribery and blackmail associated with Israel First – the same Israel that carried out the attack on the USS Liberty, 9/11, and the fifty pedophilia and murderous pedophilia entrapment operations across the USA as epitomized by the Ghislaine Maxwell and Jeffrey Epstein debacle, all apparently funded by Les Wexner, a twisted multi-billionaire leader of the Zionist MEGA Group that subverts the US economy, government, and society in alliance with people like the Rothchilds, Soros, and Gates.

[“Former Representative and Intelligence Official Team Up to Unrig Elections”](#) in *Independent Voter News* was their kick-off announcement.

The campaign in favor of America First and election reform was brutally attacked, most notably by an individual who organized over 300 documented co-conspirators in a massive persistent cyber-stalking campaign. The story is told in [#GoogleGestapo: Censorship & Crowd-Stalking Made Easy: How the Deep State controls social media and digitally assassinates critics \(Trump Revolution Book 17\)](#).

Also in 2017 Robert nurtured a new book, *Pedophilia & Empire: Satan, Sodomy, & the Deep State* by West Point graduate Joachim Hagopian – the book is free online with a tag cloud at <https://pedoempire.org>. This matters because pedophilia and the torture and murder of children is a foundation for how the Deep State maintains its power – from Members of Congress to judges to media editors and top anchors – bribery and blackmail are the methods of choice.

When the Deep State attacked Donald J. Trump with its invented Russian election interference story, Robert Steele was among the first to challenge those lies, publishing, among many publications, [The Soft Coup Collapses – Blackmail Revealed – What Next?: CIA was bluffing, produced no evidence – Russians did not “hack” the election. Is this the beginning of the end of the Deep State in the USA?](#), and shortly thereafter [REVOLUTION NOW!: Thinking About Revolution in the USA \(Trump Revolution Book 23\)](#) and also [Rigging Elections – and Worse! : Americans Rigged, Bribed, Stole, Killed, Raped, and Poisoned...and You Want to Blame the Russians? \(Trump Revolution Book 25\)](#).

There have been positive books. One in particular is [The Second American Revolution: Reflections on the Near Future \(Trump Revolution Book 37\)](#), along with a series [IF I WERE PRESIDENT: Challenging Donald Trump to Defend the Constitution, Put America First, and Implement #UNRIG \(Trump Revolution 42\)](#), [EYES ONLY: For the President \(and the Public\): Everything The Deep State Does Not Want You to Know \(Trump Revolution 43\)](#), [Election 2020: Trump-Pence Lose, Bloomberg-Gabbard Win? Or Libertarian Coalition Triumphs? \(Trump Revolution 44\)](#), [REINVENTING NATIONAL SECURITY: Grand Strategy, Global Reality, and the U.S. Army – Everything Our President Is Not Being Told \(Trump Revolution Book](#)

Cynthia is back from her two years abroad teaching at an accredited US MBA program (her PhD is in leadership and change) and we are discussing how best to make election reform central to what remains of the 2020 campaign. The below cartoon was produced as part of trying to connect with President Donald Trump, whose communications appear to be completely blocked by Deep State and Zionists apparatchiks, including his son-in-law and daughter, embedded in the White House and the campaign.

Read text message to President at [GrrGraphics/Lift-Every-Voice](https://grrgraphics.com/lift-every-voice).

Blacks, not whites, will determine the 2020 election. If President Donald Trump were to leverage both authentic black leaders of black communities such as he is not now in touch with, and offer Independents and Libertarians #UNRIG Election Reform Act as the deal of the century, the future of America the Beautiful could be assured.

Black patriots, and white patriots, must come together with all others who believe in the vision that is America First, if we are to triumph and eradicate the parasites that have sucked the bone marrow out of our economy, our government, and our society.

Election 2020 is a turning point for America and for humanity. The President is likely to win with a whimper and not take the House back. If he wants to win by the Mother of All Landslides, and decisively realign power away from Wall Street to Main Street, then is proposal, for #UNRIG Election Reform Act of 2020, is how he can do it.

We pray for America the Beautiful, for peace and prosperity for all including the Palestinians, and we pray particularly that President Donald J. Trump may prove to be the greatest President ever, Making America Great Again.

This is our motto going forward:

People, not Parties. Authentic, Inclusive, Truthful.
